Subject: TI-03 Final RFQ - Phase II - Notice

ATTENTION ALL OFFERORS:

As a reminder and as indicated in the initial RFQ, offerors should assume a 42-month operational life for proposed systems. Due to budget constraints, the HPCMP has approximately one-half of one percent of acquisition cost per month, over the 42-month life cycle, available to purchase maintenance. Offerors should seriously consider this when preparing their response to the final RFQ. Offeror quotes should be structured as a year 1 price and each successive year as an option.

If there are any questions, please feel free to contact me. Thank you.
